Detail-oriented Software Engineer with a strategic and pragmatic approach to driving project success and ensuring client satisfaction. With over 10 years of experience in designing and developing large-scale cloud-based technology solutions, I bring a strong technical foundation combined with proven leadership in delivering impactful results.

PROFESSIONAL EXPERIENCE

Natwest Group

Senior Software Engineer

Zürich, Switzerland

Apr 2025 – Present

- Led the design and development of a modular microservices-based API platform, enabling internal teams to rapidly build and deploy their own services with consistent integration standards.
- Delivered scalable solutions on AWS using Docker and Kubernetes, integrating Kafka for streaming and applying DevOps best practices to streamline CI/CD pipelines.
- Frequently used tools/libraries: Java 21, Spring, Kubernetes, PostgreSQL, CQRS, Hexagonal architecture, TDD

Beyond Beauty Club

Senior Software Engineer

Zürich, Switzerland

Sept 2023 – Feb 2025

- Led a team of software engineers to develop and deploy a complex multi-level marketing mobile application in a short time-frame growing to +20,000 users and 5 countries in six months ensuring scalability, high reliability and availability.
- Implemented robust data management strategies, including database optimisation and caching mechanisms, to handle the influx of user data and transactional volume.
- Frequently used tools/libraries: Java 17, Spring, Kotlin, Kubernetes, PostgreSQL, RabbitMQ, CQRS, Hexagonal architecture, DDD

WOW Concept

Head of Engineering

Madrid, Spain

Jan 2023 – Sept 2023

- Ensured compliance with the established software development methodology and SDLC for the business initiatives.
- Monitored reliability and performance of all internal systems to suggest improvements.
- Managed software development projects by setting requirements, goals and timelines.
- Designed strategies for future development projects based on the company's overall objectives and resources.
- Frequently used tools/libraries: Java 11; Spring; Angular 15; SAP Commerce Cloud; AWS; Cloudflare.

SEAT:CODE

Engineering Manager

Barcelona, Spain

Aug 2020 – Jan 2023

- Coordinated the product roadmap between the legacy product and the new cloud-based one to improve quality, consistency, and client satisfaction.
- Promoted and defined the restructuring of the global career ladder in order to improve employee satisfaction and ease of hiring.
- Managed a team of 12 engineers and was responsible for their mentorship, growth, performance evaluation and job satisfaction.
- Ensured Guidelines, Best Practices and Technical Agreements.

Roche Diagnostics
